

To Whom it may concern,

As a resident in the Denver area, I value KLOVE radio very much. It is a very important component to those of us in this city and it would be a travesty to find it off the air. This station brings a voice of encouragement, comfort, and hope...Three things very much needed in society today. If KLOVE radio were displaced by an LPFM broadcaster providing other programming it would be a major disservice to those of us who give monthly to support the station, but even more of a disservice to those who need to hear a message of hope... Those who need encouragement... those who find they are at the end of their rope and are feeling like giving up and somehow hear a message of grace that pulls them from the pit of their despair. These scenarios are REAL...not invented. Please allow this station of hope to stay on the air not only in Denver , but every city or town that their signal reaches. They are a light in the darkness of the world and I don't know where I would be today if it wasn't for the hope and encouragement of KLOVE. There are millions of people out there just like me. Thank you for hearing our voices.

Sincerely,  
Theresa K. Stanish
